

CoLOS® Create Professional 5.0

intuitive message design software ■ ■ ■

Our expertise ■ ■ ■

CoLOS® Create Professional 5.0 satisfies all message design and management needs. This functional software allows for easy creation and management of complex labels and codes for all the Markem-Imaje printers via a unique user interface.

This is the perfect solution to generate GS1 compliant barcodes and make a link with the enterprise database.

Your benefits ■ ■ ■

User-friendly message design – Easy design of complex messages and labels via a WYSIWYG (What You See Is What You Get) PC interface.

Easy message design management – Management and storage of all your message designs on a central PC with no storage limit.

Link to enterprise database – Standard message creation and design with variable fields linked to product database.

Compliance with industry standards – Creation of labels that comply with worldwide supply chain standards (GS1).

the team to trust ■ ■ ■

Coder and printer support ■ ■ ■

- Direct native control of unlimited Markem-Imaje coders and printers:
- 2000 Series (CimJet and 2000 Series)
- 4000 Series (4020)
- 5000 Series (5200, 5400, 5600 and 5800)
- 7000 Series (SmartLase 110, SmartLase 130, 7011 and 7031)
- 8000 Series (SmartDate)
- 9000 Series (9020, 9030, 9040, 9232)
- Datamax Series

GS1 barcodes ■ ■ ■

- EAN 8/13
- UPC A/E
- Code 128
- EAN 128
- Code 39
- ITF (Interleaved 2 of 5)
- QR
- Datamatrix
- GS1 Databars
- Others available

Languages ■ ■ ■

- English
- Chinese
- Dutch
- French
- German
- Italian
- Japanese
- Polish
- Portuguese (Brazilian)
- Spanish

Flexible design ■ ■ ■

- Full Unicode support
- Text, paragraph, barcode, line/box and graphics fields
- Move, copy, edit, multi-level undo and custom/selectable
- Rulers and grids for design accuracy
- Alignment tools
- Variable data fields in paragraph blocks
- Fixed information stored within message design
- Merge from other data within message design or database
- 0°, 90°, 180°, 270° rotation
- bmp, tif, gif, jpg, png, wmf graphic support
- Calendar function for flexible date scheme
- Multiple pre-defined date and time formats

Data management ■ ■ ■

- Centralized access to messages and labels, databases and graphic files
- Internal Job Database editor
- Support for Open DataBase Connectivity (ODBC) data sources
- Formula builder for real-time data parsing and mathematical calculations

System requirements ■ ■ ■

- 512 MB RAM or higher Microsoft Windows XP SP2, 2003 SP2, Server 2008, Vista SP1, Windows 7
- Intel 2.4 GHz or higher
- Color VGA display and Windows compatible pointing device
- Requires Microsoft .NET Framework 3.5

Administration ■ ■ ■

- Multi-level secure user access: designer, operator, supervisor, observer, administrator

Industrial connectivity ■ ■ ■

- Ethernet TCP/IP
- RS232, RS485
- USB
